Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 10/1/2008.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-72 is/are pending in the application.

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(c) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 58, 59, 61, 63, 64, 66, 67, 68, 69 and 71 are rejected under 35 U.S.C. 102(c) as being anticipated by Cheikh (US 2002/0111603).

Cheikh discloses in paragraphs [0306-0316] and Figure 7 a method comprising the steps of loading a biodegradable polymeric implant comprising a therapeutic amount of an active agent (9) into a conduit (13), accessing a sinus with the conduit (Example 1 as described in paragraphs [0306]-[0316] discloses using instrsinusoid inserts with the device of Figures 5-10), deploying the implant through the opening in a sharp-tipped conduit (13) into the sinus with a pusher (14).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 72 is rejected under 35 U.S.C. 103(a) as being unpatentable over Cheikh as modified by Boehm et al (US 2006/0162722).

Cheikh discloses the claimed invention except for the active agent comprising mometasone furoate. Boehm et al teach that it is known to deliver mometasone furoate to the sinus in paragraphs [0039] and [0041]. It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the method of Cheikh by using mometasone furoate as taught by Boehm et al since such a modification would allow for anti-inflammatory action in the sinus.

Response to Arguments

Applicant's arguments filed 10/1/2008 have been fully considered but they are not persuasive. Applicant argues that Cheikh relies on an "invasive system" to create access to the paranasal sinus. Examiner however points that while this may be true of the embodiment of Figures 1-4, Cheikh also discloses a system in Figure 7 which discloses the Applicant's claimed invention.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
